“Backup Process”

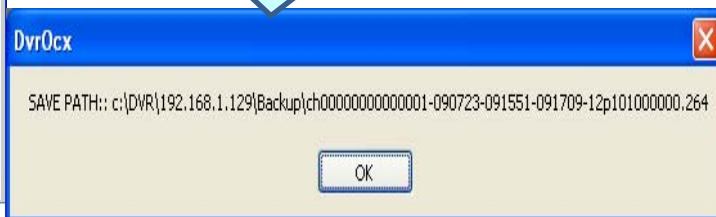

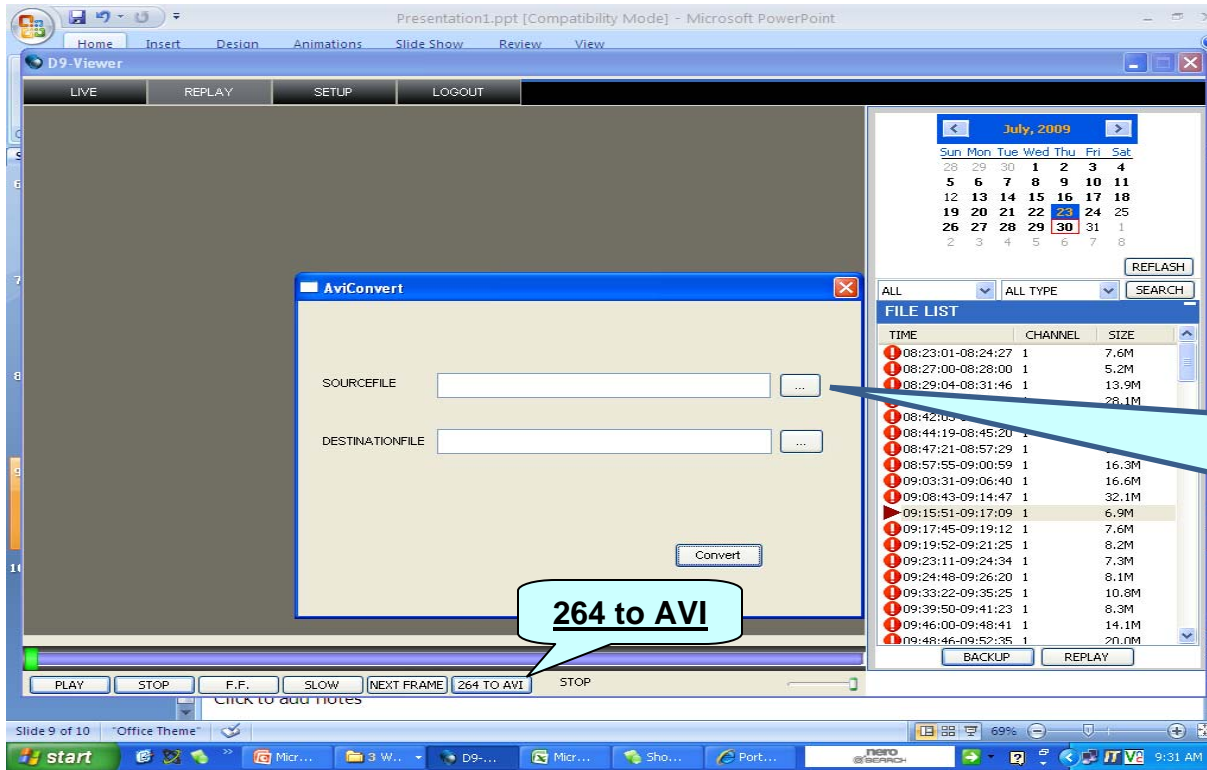

3) A list of video events will display as seen here.

4) To Back-up: **Highlight** a video file, then click on **“Backup”**, to begin process.

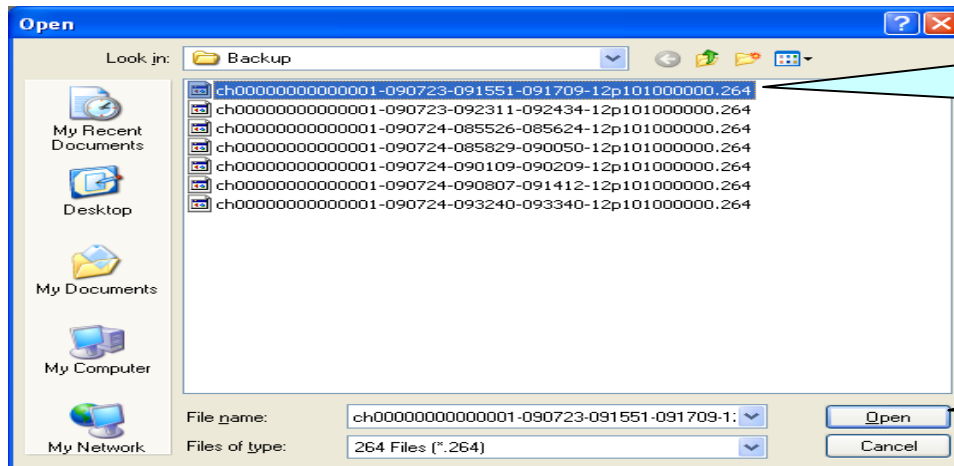

5) When the file backup is done... A message will appear indicating the process is completed as well as the saved file location.

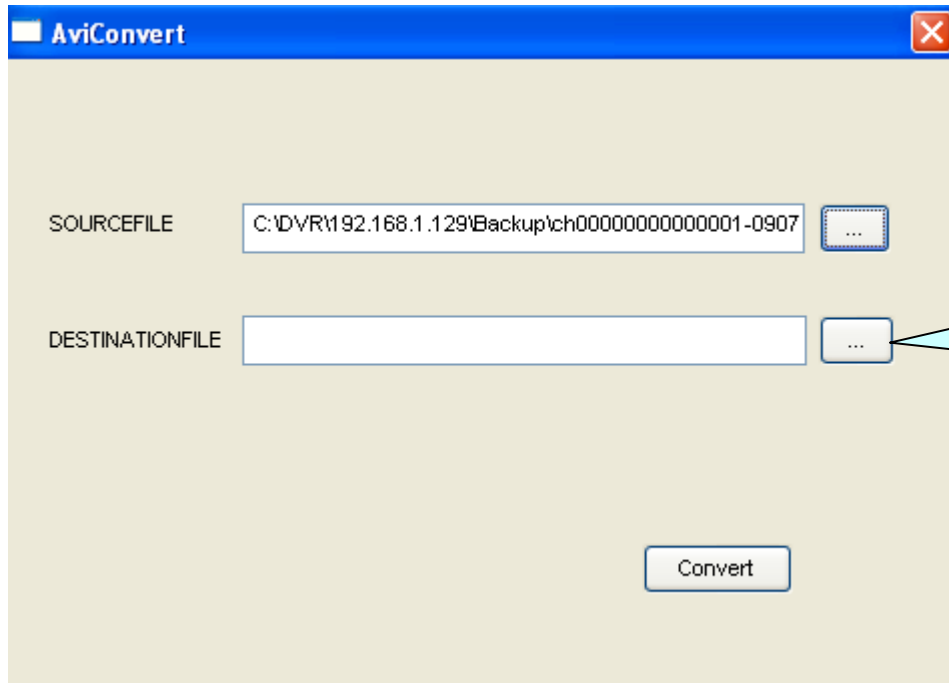

“Converting a backup file to AVI”

1) First click on the “264 to avi” button, then click on the browse button of “Source File.”

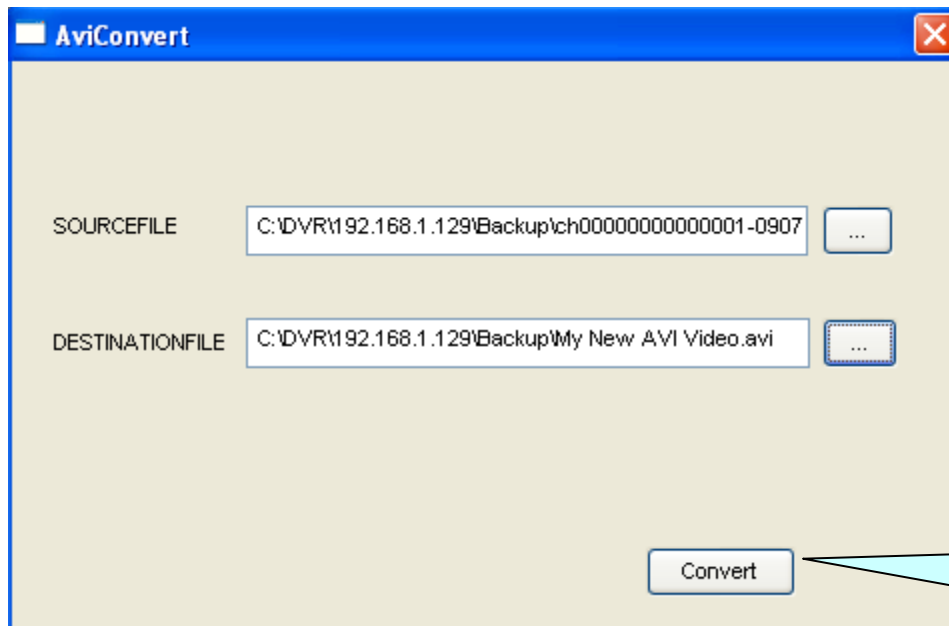

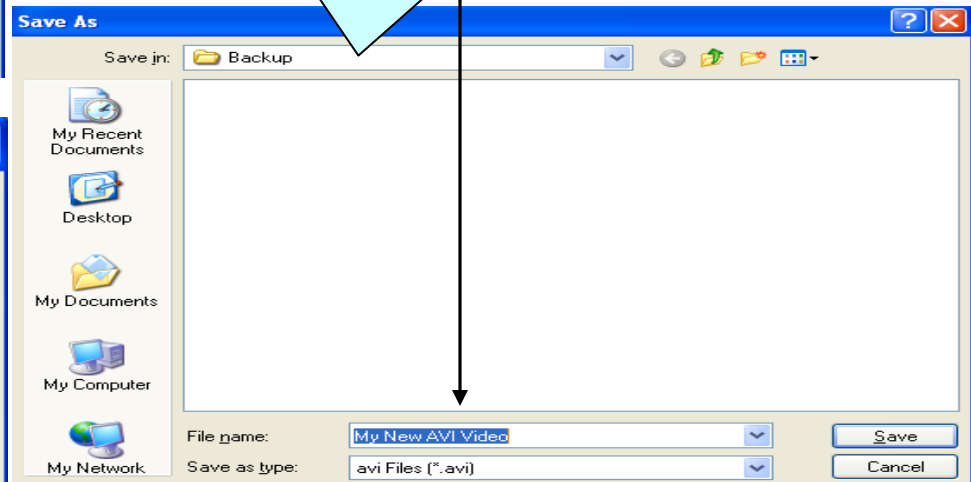

2) Now, highlight the file for conversion... and click the “Open” button.

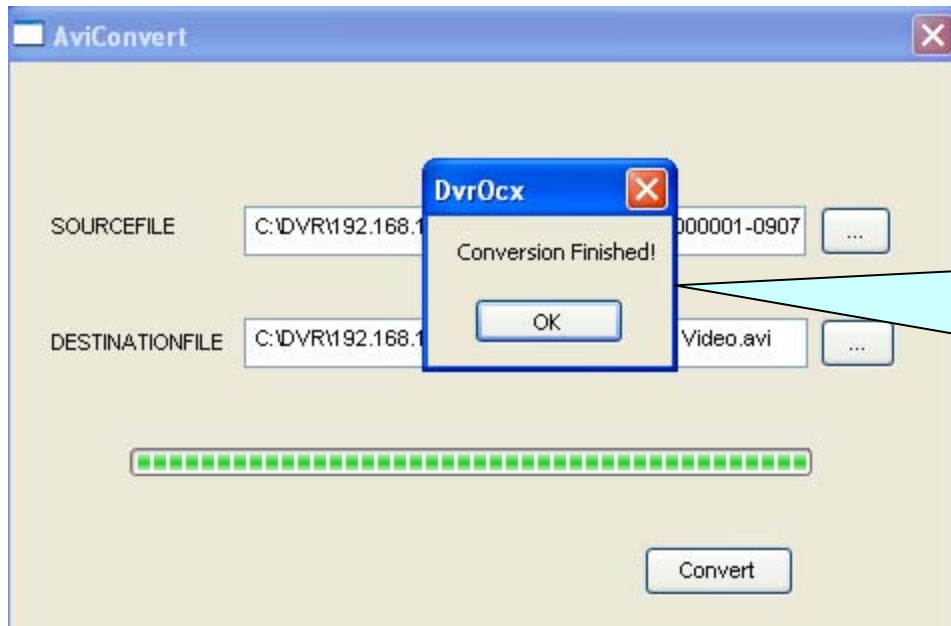

Convert file to AVI
(Cont.)

3) Now that the Source file is selected, you must name the .avi to be created and choose a destination location.

Select location/folder and name file. Then click on **“Save.”**

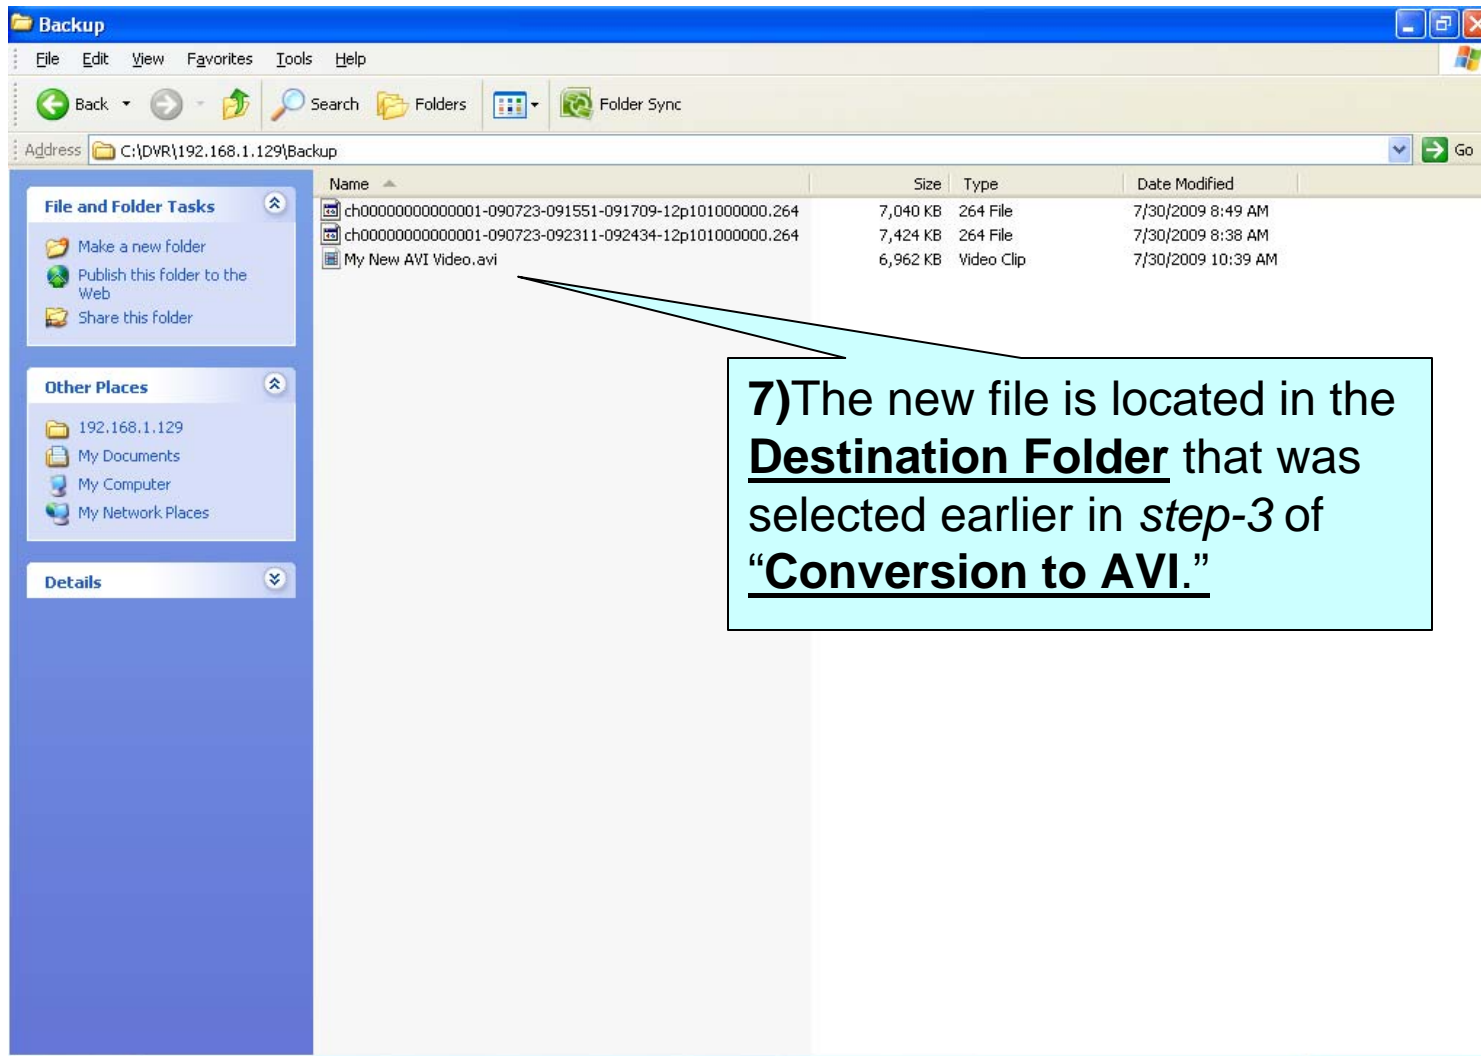

4) Click on **“Convert”** button and the .avi file will be created.

Convert file to AVI
(Cont.)

6)The file is now created and can be burned to a cd, copied to a flash drive or played with any .avi supported media player,
